## Is Your Accounting Function Working *For* Your Business or *Against* It?

*Need a new approach to your internal accounting?  
We've got you covered!*

### In-House Accounting Challenges

1. Paying the high costs of employee salary and benefits.
2. Having limited flexibility during slower times of the year.
3. Working around employee paid time off and sick days.
4. Being held back by limited knowledge or experience.
5. Lacking a big picture, strategic overview of your finances.
6. Spending time and money training employees.
7. Struggling to build your business.

### SN Outsourced Accounting Benefits

1. Pay only for the work you need – no benefits or extras attached.
2. Choose from scalable options – hire for a period of time that you determine.
3. A team that works when you work, guaranteeing a replacement when needed.
4. Access to professionals who know accounting inside and out.
5. Timely, accurate reporting that allows you to make better, more informed decisions.
6. Specialized skills in accounting and technology means you don't waste resources on training.
7. Extra time for you to focus on growing your business.
